

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

1. **Contest Sponsor:** The Anne Arundel Radio Club (AARC), PO Box 308, Davidsonville, MD 21035-0308
2. **Contest Dates:** This contest is conducted in a single 14-hour operating period beginning on the second Saturday in August at 1400 UTC and ending at 0400 Sunday UTC.
3. **Entry Acceptance:** Valid entries must be received within 30 days from the end of the contest, which is 0400 UTC on a Wednesday.
4. **Station Categories:** There are eight station categories. You may only enter under one category.
 - a. **Club Station (Club or CLB; category A)** – There are two definitions for this category. Both require that all stations be operated from the same fixed location.
 - i. A station operated by a single operator using a single transmitter and using a club call sign throughout the duration of the contest or
 - ii. A station operated by multiple operators using a single or multiple transmitters, using a single call sign (whether a club call sign or individual call sign.) throughout the duration of the contest.
 - b. **Roving Station (Rover or ROV; category B)** – A MDC mobile station which operates from three or more MDC contest locations as listed in Table 1 during the course of the contest period.
 - c. **Unusual Station (Unusual or UNU; category C)** – Vehicles which by their nature may have no 'inside', and do not otherwise qualify under the Mobile Station category definition, may operate in this category. The radio operator will normally be in a position in which the vehicle is normally operated (seat, saddle, etc.). This category includes, but is not limited to, motorized vehicles (like motorcycles, motor bikes, Segways, motor scooters, etc.), transport powered by animals (like a horse and buggy), gravity powered vehicles (like soap box derby cars), and human powered vehicles (like bicycles, tricycles, skate boards etc.). In the case of unusual vehicles the antenna may be mounted on the vehicle and not attached elsewhere, or the antenna may be mounted directly on the transceiver. Operators who choose this category are encouraged to submit a photo of their stations for display on the MDC QSO web site.
 - d. **Mobile Station (Mobile or MOB; category D)** – A station operated from inside a motorized vehicle in motion or parked, regardless of the number of operators or number of transmitters. A station transmitter(s) must be safely operated from inside the vehicle, using antennas mounted on the vehicle and not attached elsewhere. The vehicle must be located at least 500 yards from the home QTH of the station when operating, or from property owned or rented as a residence by the operator(s). Power must not be sourced from a utility/power grid.
 - e. **QRP Station (QRP; category E)** – A station operated from a fixed or portable location by a single operator using a single transmitter with a transmitted signal which does not exceed 5 watts PEP.
 - f. **Standard Station (Standard or STD; category F)** – A station operated from a fixed or portable location by a single operator using a single transmitter with a transmitted signal exceeding 5 watts (PEP) but not exceeding 150 watts (PEP) during the contest.
 - g. **Amplified Station (Amplified or AMP; category G)** – A station operated from a fixed or portable location by a single operator using a single transmitter with a transmitted signal exceeding 150 watts (PEP) but not exceeding 600 watts (PEP) during the contest.
 - h. **Unlimited (Unlimited or UNL; category H)** – A station operated from a fixed or portable location by a single operator using a single transmitter with a transmitted signal that has exceeded 600 watts (PEP) during the contest.

The Fun Contest
Maryland-DC QSO Party Rules
 Effective 4 March 2020

5. Modes: Only three transmitting modes are allowed.

- a. Phone: Any phone mode may be used.
- b. CW: Only International Morse Code may be used.
- c. Digital: Any digital mode may be used, such as PSK31, RTTY, FT8, and FT4.

6. The Exchange: The exchange is simple. You give your Station Category (e.g. Club, Mobile, QRP, etc.) and Location to each contacted station. Your location will be as follows:

For stations outside of Canada and the United States, use your country.

For Canadian and non-MDC stations, use your province or state.

For MDC stations, use your county or city as indicated below in Table 1.

NOTE: The exchange for FT4 or FT8 transmissions is slightly different. Details of the FT4/FT8 QSO procedure are described below in paragraph 14.

No.	County/City	Abbreviation	No.	County/City	Abbreviation
1	Allegany	ALY	14	Howard	HWD
2	Anne Arundel	ANA	15	Kent	KEN
3	Baltimore City	BAL	16	Montgomery	MON
4	Baltimore County	BCT	17	Prince George's	PGE
5	Calvert	CLV	18	Queen Anne	QAN
6	Caroline	CLN	19	St. Mary's	STM
7	Carroll	CRL	20	Somerset	SMR
8	Cecil	CEC	21	Talbot	TAL
9	Charles	CHS	22	Washington	WAS
10	Dorchester	DRC	23	Wicomico	WIC
11	Frederick	FRD	24	Worcester	WRC
12	Garrett	GAR	25	Washington DC	WDC
13	Harford	HFD			

Table-1

Example: *W3VPR this is N3ADF Mobile station in Queen Anne (QAN if using CW) county
 N3ADF this is W3VPR Club station in Anne Arundel (ANA if using CW) county*

The Fun Contest
Maryland-DC QSO Party Rules
 Effective 4 March 2020

7. Canadian Provinces: The following are the Canadian Provinces and Territories used for the purposes of this contest.

Province	Call Area and Description
Newfoundland & Labrador	VO1 or VO2
Maritime	VE1 Nova Scotia, VE1-VE9 New Brunswick, VE1 or VY2 Prince Edward Island
Quebec	VE2 or VA2
Ontario	VE3 or VA3
Manitoba	VE4
Saskatchewan	VE5
Alberta	VE6
British Columbia	VE7 or VA7
Northwest Territories	VE8 North West Territories, VY1 Yukon Territory, and VY0 Nunavut Territory

Table-2

Example: *W3VPR this is AG4RR mobile in Kentucky
 AG4RR this is W3VPR we're a Club station in Anne Arundel (ANA if using CW or digital) county
 W3VPR this is VE3XYZ, I am a Standard station in Ontario
 VE3XYZ this is N3ADF. We are a Mobile station in Washington DC. Whiskey Delta Charlie (WDC if using CW or digital).*

8. Miscellaneous Rules:

- a. Make lots of contacts.
- b. Have the most fun allowed by law!
- c. Stations not located in the state of Maryland or the District of Columbia may only receive credit for contacts with stations located in Maryland or the District of Columbia (MDC section).
- d. Stations located in the state of Maryland or District of Columbia may work stations located anywhere.
- e. Club stations must operate from a single location.
- f. Mobile stations must be operated from inside a mobile vehicle, whether in motion or parked, and with antenna(s) mounted on the vehicle or the radio itself and not attached elsewhere.
- g. All licensed vehicles are considered mobile vehicles, regardless of whether they can move or not. Unlicensed vehicles which are incomplete or damaged are considered to be immobile, and therefore must be declared as fixed locations rather than mobile vehicles. Finally unlicensed but operational vehicles will still be considered as mobile vehicles.
- h. The use of repeaters, digipeaters, satellite retransmission, or the Internet (e.g. EchoLink) is not allowed.
- i. Only simplex contacts are allowed except when split frequency QSOs are made within the same band.
- j. Cross mode contacts are prohibited.

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

- k. Stations may be worked only once per band per mode except as exempted by paragraph l. below. This means that any stations (so long as one is in one of the locations listed in Table 1) may contact any other station on any band up to three times, provided a different mode is used each time.
- l. Stations that change their location from one MDC entity (as listed in Table 1) to another, shall be considered as a 'new' station, and may be worked again from this new location in all contest modes for contest credit for both stations involved. Similarly non-MDC stations who change their location from one US State, Canadian Province, or country to another shall also be considered a 'new' station.
- m. A station that is both QRP and either Mobile or Rover may only enter in one of these categories.
- n. For the MDC QSO party, Alaska and Hawaii count as States only.
- o. Participating stations may not count Maryland as a state they have worked. The emphasis is on working Maryland Counties, Baltimore City or Washington DC.
- p. Contacts made during a net operation may not be included.

Example: You may not participate in the "3905 Century Club" and claim those contacts for the MDC QSO Party.

- q. Maryland-DC Stations submitting a log for the MDC QSO Party may not use a 1x1 call sign (aka Special Event Call Sign), however contacts made with station using a 1x1 call sign will be accepted.
- r. Marine Mobile stations within the waterways of the various Maryland Counties, Baltimore City and Washington DC may participate from the entities in which they are located. Marine Mobile stations on the Chesapeake Bay and more than 100 meters from shore shall be prohibited from participating in this contest.
- s. Stations submitting a paper log for the MDC QSO Party must also submit a Summary Sheet. There are two versions of the Summary Sheet:

Version 1 – A Summary Sheet for non-MDC Stations (Stations not operating in the state of Maryland or the District of Columbia).

Version 2 – A Summary Sheet for MDC stations (Stations operating within the State of Maryland and/or the District of Columbia).
- t. Self spotting in any form is not permitted. Self-spotting is defined as the practice of sending a spot advertisement of your own station.

Instructions for completing the Summary Sheet, including examples of the two versions, can be viewed and downloaded from the MDC QSO Party website. The two versions of the Summary sheet are available for downloading as a .pdf file document from the MDC QSO Party website:
<https://www.w3vpr.org/MDCQSOPlinks>

9. Authorized and ~~Suggested~~ Frequencies: Contacts on WARC bands and 60 meters are not allowed. All other bands may be used. The following are suggested frequencies for use during the contest.

- a. CW: 3.557, 7.045, 14.045, 21.045, 28.045 50.095, 144.095
- b. SSB: 1.895, 3.821, 7.230, 14.271, 21.371, 28.371, 50.131, 144.141, 431.141

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

- c. FM: 52.525, 146.55, 146.58, 223.40, 446.00
- d. Digital: In accordance with the ARRL Band Plan

10. Scoring:

- a. Contact Points will be based on the mode used to complete the contact, as follows:
 - 1) 3 points if the contact was made in CW mode (using International Morse Code)
 - 2) 2 points if the contact was made using any digital mode, excluding digital voice
 - 3) 1 point if the contact was made using phone, to include digital voice
- b. Multipliers for all entrants: The total of all Contact Points will be multiplied by each of the following multipliers in sequence. (See example below.)
 - 1) **Maximum Transmit Power Multiplier:** Based on the highest power level used for any contact.
 - a) 3 If the Maximum Transmit Power does not exceed 5 watts PEP.
 - b) 2 If the Maximum Transmit Power exceeds 5 watts PEP but not 150 watts PEP
 - c) 1 If the Maximum Transmit Power exceeds 150 watts PEP but not 600 watts PEP
 - d) 1 If the Maximum Transmit Power exceeds 600 watts PEP
 - 2) **Entrants Category Multiplier:** Based on the category for which the station is entered.
 - a) 1 if the Entrants Category is Club or CLB station.
 - b) 3 If the Entrants Category is Rover or ROV station.
 - c) 4 If the Entrants Category is Unusual or UNU station.
 - d) 2 If the Entrants Category is Mobile or MOB station
 - e) 1 If the Entrants Category is QRP Station
 - f) 1 If the Entrants Category is Standard or STD station
 - g) 1 If the Entrants Category is Amplified or AMP station
 - h) 1 If the Entrants Category is Unlimited or UNL station
- c. **Multiplier points for MDC Stations:** Stations in Maryland and the District of Columbia earn one multiplier point for making initial contact with the following:
 - 1) Each Maryland County, and cities of Baltimore (BAL) and the District of Columbia (WDC) – 25 maximum.
 - 2) Each State (less Maryland) – 49 maximum
 - 3) Each Canadian Province – 9 maximum
 - 4) Each DXCC country except the United States of America, Canada, Hawaii and Alaska
 - 5) Multiplier points described in 1) through 4) above will be added together before being used as a multiplier.
- d. **Multiplier points for non-MDC Stations:** Stations not operating from within Maryland or the District of Columbia earn one multiplier point for making initial contacts with: Each Maryland County, the cities of Baltimore (BAL) and the District of Columbia (WDC) – 25 maximum
- e. **Bonus Points:**
 - 1. Fifty bonus points will be awarded to each station submitting a contest log with at least one confirmed contact with station W3VPR (The call sign of the Anne Arundel Radio Club). The 50

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

- bonus points must be claimed either via Website entry, or on the Summary Sheet which must be submitted with your log.
2. Fifty bonus points will be awarded to each entrant in the Unusual Station category submitting a photograph of their station as operated. This photo may be displayed on the MDC QSO Party web site.
 3. Fifty bonus points will be awarded for web form submission of entry, including Cabrillo file. This form is found at https://www.w3vpr.org/QSO_Party_Submission.
 4. **FIVE HUNDRED** bonus points will be awarded for working all 25 MDC jurisdictions during the MDC QSO party.
- e. Total Score: You do not need a degree in mathematics to determine your score. If you can add and multiply you are in good shape.
- i. Add the number of contacts made using each of the three Modes listed in 10.a. above.
 - ii. For each Mode multiply the number of Contact Points noted in 10.a.1), 10.a.2) and 10.a.3) above, by the number of contacts made using that same mode, as just computed. Add those 3 numbers together to produce the number of Contact Points earned.
 - iii. Determine the Maximum Power Multiplier noted in 10.b.1) above, and Category Multiplier noted in 10.b.2) above.
 - iv. Next, based on whether you are entering from within Maryland-DC (MDC) or outside of Maryland-DC. Determine either your In-State Multiplier Points, or your Out-Of-State Multiplier Points as applicable. Consider this amount to be your State Multiplier.
 - v. Now multiply your Contact Points times your Maximum Power Multiplier times your Category Multiplier times your State Multiplier to create your Basic Score. The formula for this is:
 $(\text{Contact Points}) \times (\text{Maximum Power Multiplier}) \times (\text{Category Multiplier}) \times (\text{State Multiplier}) = (\text{Basic Score})$
 - vi. Next determine if you have earned any bonus points. If you have contacted W3VPR during the contest, in any mode, you earn 50 bonus points. If you have submitted a photo of your Unusual station, you earn 50 bonus points. If you are submitting via web form, to include Cabrillo file, you earn 50 bonus points.
 - vii. Add your Basic Score to your Bonus Points to get your Total Score. The formula follows:
 $(\text{Basic Score}) + (\text{Bonus Points}) = (\text{Total Score})$. You are done. You have your Total Score.

Example: If you make 1 phone, 1 CW and 1 digital contact your Contact Points are 1+2+3 or 6. If you then used a maximum transmit power of 100 watts, your power multiplier is 2, and your total is 2x6 or 12. If your entry category is Standard Station(STD), your category multiplier is 1, and your total is 1x12 or 12. If you lived in Maryland and made those 3 contacts with 3 different counties, your state multiplier is 3, and your total becomes 3x12 or 36 points. And finally the bonus points are calculated and added to the basic score. A contact with W3VPR would add 50 bonus points for 36+50 or 86 points. Thus you would report a total of 86 points.

11. QSO Party Logging software: There are several logging software programs that support the MDC QSO Party, which include the creation of a Cabrillo file. Here are a few:

- <http://www.n3fjp.com/stateqsoparty.html> – A very large selection of logging software is available
- <http://www.qsl.net/w3km/> -- Download GenLog for free!
- <http://writelog.com> – A very large selection of logging software is available
- <http://www.n1mm.com> – This free software can be adapted to a large number of on-air contests.

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

NOTE: You are not required to use logging software to document your contacts. The above listing does not infer or imply an endorsement by the Anne Arundel Radio Club or the MDC QSO Party Committee. Caveat emptor (Buyer Beware!). Use all software at your own risk.

12. Logs: All Maryland QSO Party Submissions comply with the following rules:

- a. The participant's QSO Party Log. These may be in the Cabrillo format, in a Microsoft Excel spreadsheet, LibreOffice Calc spreadsheet, or in a legible hand-written form. If we cannot read your handwriting we will not count the contact.
- b. A completed QSO Party Summary Sheet is required. Paper QSO Party logs submitted without a completed QSO Party Summary Sheet will be considered invalid and will not be accepted. The Summary Sheet is available as a .pdf file from the MDC QSO Party website: <http://www.w3vpr/MDCQSOPlinks>
- c. Logs and Summary Sheets must be received **within 30 days following the end of the contest.**
- d. Though we HIGHLY encourage the use of website entry (earning you 50 bonus points!), you may also submit your Logs and Summary Sheets vis the US Post Office or by email.

WEBSITE

https://www.w3vpr.org/QSO_Party_Submission

USPS

MDC QSO Party
P.O. Box 308
Davidsonville, MD 21035-0308

E-Mail

MDCQSOP@w3vpr.org

- e. All decisions by the Maryland QSO Party Contest Committee concerning any log and/or summary sheet will be considered final. By submitting your entry, you agree to abide by the decisions of the Maryland-DC QSO Party Contest Committee.

The Fun Contest
Maryland-DC QSO Party Rules
Effective 4 March 2020

13. Prizes: Prizes may be awarded in each category and category endorsement as indicated below.
- a. A plaque and certificate will be awarded to the station with the highest score in each category as long as there are a minimum of five entries submitted in that category or category endorsement. If there are not five entries in a category the first place finisher will receive a certificate acknowledging their accomplishment.
 - b. All other participants will receive a certificate indicating their official standing in their category.
 - c. Any station submitting a log with at least 10 QSOs will receive a "Participating Certificate".
 - d. Additionally, the following endorsements are available for each operating category:
 - i. YL (All of the operators must be YLs).
 - ii. Youth (all of the operators must be under the age of 18).
 - iii. VHF-UHF Only (This category operated only on VHF and/or UHF frequencies).
 - iv. Worked all MDC jurisdictions.
 - e. The MDC Club Membership Participation trophy will be awarded to the MDC ARRL registered radio club with the highest total participation score. All the points earned by your club's station, plus the points earned by club members operating other participating stations independent of the club station will determine the club's raw participation score. The points earned by any member operating an individual station may be apportioned at the time of submission to one or more ARRL registered clubs. All points earned by a bona fide ARRL club station using a club call sign will be apportioned to that club.

The 2-digit percentage of the members of your club who participated in the contest will be calculated. The first digit of that percentage will be added to 1 to establish the multiplier. The raw score will be multiplied by this number to produce the total participation score.

Examples: For 09% club member participation, the multiplier is 1.
 For 27% club member participation, the multiplier is 3.
 For 72% club member participation, the multiplier is 8.

This will give smaller clubs a chance to equitably compete against the larger ones, since smaller clubs should find it easier to encourage a high percentage of their members to participate.

Persons or organizations interested in sponsoring a plaque or making a donation may contact MDCQSOP@w3vpr.org for details.

14. IMPORTANT MESSAGE FOR CONTESTANTS USING FT4/FT8: The Nevada QSO party has developed a method by which the ARRL Field Day mode may be used for FT4 and FT8 QSO Party Contacts. It is our intent to use their system in the Maryland-DC QSO Party for 2020. Currently our system requires location numbers 1 through 25, and category letters A-H. Since Field Day entries are limited to letters A-F, MDC QSO categories f, g, and h will be reported as category F. Because all digital modes are allowed in the Maryland DC QSO Party, provided the correct exchange information can be relayed between contestants, no special rules are required.

The Fun Contest

Maryland-DC QSO Party Rules

Effective 4 March 2020

When using the WSJT-X software to transmit and receive FT4 or FT8 messages, the “special operating activity” box should be checked under the file > Settings... > Advanced tab, and the “ARRL Field Day” button should be selected. If you are a MDC station, your location number and category and the “MDC” should be entered in the “FD Exch:” box. If you are a non-MDC station, your location number is “1” , which should be followed by your category designation, and then your ARRL section, or “DX”.

Examples:

MDC standard station operating in Prince George’s County: FD Exch: 17F MDC San Diego, California mobile station: FD Exch: 1D SDG

Pittsburg, Pennsylvania QRP station: FD Exch: 1E WPA

German unlimited station: Fd Exch: 1F DX

When you select the special operating activity FD mode, your TX 6 message, which is sent as your “CQ” request, is automatically initialized to “CQ FD (callsign) (grid square)”. You should change the “FD” to “MDC” to let listeners know that you are participating in the MDC QSO party. It would then look something like this: “CQ MDC W3VPR FM18”.

Good Luck to All !!!
